

## **JOB DESCRIPTION**

### **City of Arlington Oregon Wastewater Operator Collection/ Treatment Level II**

#### **Primary Position: Wastewater Operator Collection/Treatment Level II**

Operate and maintain a 0.073 MGD activated sludge package plant per Oregon DEQ issued NPDES permit 101369. Duties include maintenance of all parts of the Plant. Sampling of Influent and Effluent for testing by outside laboratory with transport to said laboratory. Application of Bio Solids to City owned property in accordance with CFR 503 Regulations. This includes sampling of Bio Solids for laboratory analysis and transport to lab in required timeframe for analysis.

Operate and maintain the collection systems for the City of Arlington. This includes a Duplex Lift Station located at Highway 19 and Cottonwood Street. Maintain station includes pump removal and replacement. Rebuilding of pumps as spares for replacement, as well as ordering replacements as needed. Operation of a Sewer-jet high pressure line cleaner but no vacuum.

Ability to read engineered maps to locate and install future connections for new facilities and homes. Inspection of newly installed services is required.

This position requires knowledge of laboratory processes and procedures for testing for plant processes and math skills for calculations. Computer skills to complete required reports for DEQ and EPA. Communicating with DEQ as required during Permit Renewal periods

#### **Ancillary Positions: Water Distribution Level I**

Operate and maintain a 1.55 Million Gallon Water System with 4 Pump Stations and 3 Wells. The system uses Chlorine Gas (150 lbs) cylinders at 3 stations. Gas systems are vacuum regulated for injection into the system. Operations, maintenance, installation, and repair of the system with knowledge of system pressures, electronic troubleshooting and interpretation of engineering maps for location and installation.

Other Works: Working weekend duty to maintain restrooms, water, and wastewater. Maintenance of Parks, Streets, and Buildings as required. Maintain a CDL. Maintaining public confidence in its governing body and public works for the betterment of the community.

Supervision Received:

He/she shall work under the direct supervision of Public Works Superintendent who will assign work details and review work in progress or upon completion for conformance to quality and standards. Supervision is not a responsibility.

Physical Characteristics Necessary for Performance of Duties:

Performance of the assigned duties, listed previously in this description, require several physical characteristics. These characteristics include but are not limited to bending, lifting and twisting motions, such as digging and valve operation, ability to recognize audible and visual criteria such as alarms, ability to operate a variety of trucks and equipment which require physical coordination such as the sewer jet and backhoe. Additionally, conditions such as limited available space in pump stations and other confined space areas will require physical coordination and full use of extremities and tactile senses for safety of the operator and others.

Benefits

Position includes a generous benefit package; salary negotiable. DOQ.
